The Times

ALL ALONG THE LINE.

The San Diego Council, after passing a plan for a \$150,000 water and electric-light plant, is now considering a plan for a second electric-light plant to cost \$48,000. No wonder the bay's climate taxpayers are glad that a new Council is about to be elected.

Collis P. Huntington, not wholly unknown to a certain sort of fame, is reported to be about to pay his formal respects to the people of San Diego. The novel spectacle of the old gentleman in the act of paying attention ought to attract a large audience.

There is new evidence that the greed of the Southern Pacific Company overleaps itself in the fact that two-thirds of the merchandise sent from this city to Pomona and Ontario goes by team. The greed of that company is a self-imposed handicap which affects the general public as badly as itself.

Uncle Collis needs a guide when he starts for Santa Monica. At the railroad office yesterday, the clerks said he had gone down to look at his private harbor, but he turned up at San Pedro in the afternoon. There may be an explanation other than ignorance of the geography of the country to account for his erratic movements. Possibly he has acquired the habit of traveling crooked roads and can't go straight to any goal.

The passage of an ordinance by the Council yesterday, calling an election for April 10 on the refunding of the bonded indebtedness of the city at a lower rate, means a saving of \$5000 a year for the city in interest charges, because it is assured that the new bonds will carry. Public sentiment has been in favor of such a saving for years, but no opportunity was offered to lower the bond interest rate until the late Legislature provided the means.

THE TIMES' RAILWAY NUMBER.

Full of Interest.

[San Francisco Call:] The Railway Number of the Los Angeles Times, published under the auspices of the Order of Railway Conductors, was a very creditable edition of twenty pages, with beautiful colored covers. It contains a history of transportation from the time of Eurastus and Araxes, five thousand years ago, when the former ferried the latter on a log over a river in Asia Minor, and received in payment a hind quarter of deer, whereupon transportation became a recognized vocation of man. The history is full of interest and well worth reading.

Characteristic of the Transportation Business.

[Anaheim Independent:] The Independent office is in receipt of a copy of the Railway Number of the Los Angeles Times of the 15th inst. This number is published under the auspices of the Order of Railway Conductors, Los Angeles, and contains many beautiful illustrations characteristic of the transportation business from the earliest historical period down to the present time, together with a description of the various modes of conveyance, etc. The biennial convention of the railway conductors will be held in Los Angeles on May 11 next, and the society will share in the profits from this number of the Railway Times. Another edition of the Times will be issued upon adjournment of the convention and will also be illustrated and will contain a full account of its proceedings.

Handsome and Useful.

[Pomona Beacon:] The railroad edition of the Los Angeles Times issued last Monday is an excellent number and is handsomely clothed in a colored lithographed cover. It shows a history of traveling 5000 years ago and all along up to date.

Meaty in History.

[El Barboneño:] The Times of Los Angeles, on March 15, issued a special Railway Number that is meaty in history and sketches of means of land travel from the earliest times down to today. This special number is issued under the auspices of the Order of Railway Conductors, which has a share in its profits to be used to help defray the expenses of the biennial convention of the order at Los Angeles on May 11 next.

Touching Consideration.

[Chicago News:] Mr. Fitzsimmons's victory was, after all, just a beautiful triumph of conjugal affection and loyalty. In his own modest account of the fight, telling how his wife cheered him on, he says: "I said to myself, 'I shall never be the lot of that woman to be the wife of a licked husband.' So noble a sentiment, especially when expressed so near to Oklahoma and South Dakota, is worthy of all praise.

[Chicago News:] Uncle Swayback.

Them city folks ain't so fast as I was a susposin'.
Aunt Furby. How's that, Silas?
Uncle Swayback. I want to be one of them oppery houses and they was still playin' "Hamlet" that I seed ten years ago, b'gosh.

[New York Advertiser:] Jinks. My marriage was a failure, at any rate.

Binks. How so? I thought you married an heiress.
Jinks. I did, and she insists on managing her own money.

[New York Journal:] Old Jimlets.

Dearest, before we were married you used to fairly doze on me.
Mrs. Jimlets (sighing). Yes; but you have given me the antidote too often since, my dear.

[Boston Transcript:] She. I'm afraid you cannot bring real love to me.

He. Yes; but that, you know, was only a curtain-raiser.
She. And this is to be what—a comedy or a tragedy? Thanks, I'd rather not appear in either.

[Yonkers Statesman:] She. Music hath charms, you know.

He. Yes; I'll bring up a brass band with me, next time I call.
"Couldn't you make it a gold band with a solitaire in it?"

[Chicago Post:] Dewey says he favors 16 to 1 in girls, but we cannot approve of his views. It's awkward to have too many around. Besides, when you get just the right one, the gold standard is always preferable.

SOCIETY.

The wedding of Miss Louise Levina Franco, daughter of Mrs. Lena Franco, and John E. Schweng of Beaumont, took place yesterday afternoon at 5 o'clock at the residence of the bride's mother on West Seventh street. The ceremony, which was performed by the Rev. George Runkel, was witnessed only by the relatives and most intimate friends. A reception, to which a hundred invitations had been issued, was held in the evening. The bride was gowned in cream-white broad satin, made en train, and finished with a vest and revers of crystal embroidery. The long tulle veil was fastened with the bride's diamond engagement ring and a cluster of orange blossoms. She carried white violets and camellias. The maid of honor, Miss Ella Robins, was gowned in white silk, garnished with frills of white chiffon and pearl trimming, and carried pink carnations and maidenhair ferns. The bridesmaids were Miss Eva Lachman and Miss Clara French. The former was gowned in yellow broad satin, garnished with chiffon of the same shade, and carried yellow carnations. The latter wore cream-white silk crepe, made up with embroidered chiffon, and carried pink carnations. The little flower girl, Miss May Schweng, the groom's sister, was gowned in white silk, with lace and pink ribbons and carried a basket of pink roses. Little Ross Whitley preceded the bride, bearing the ring upon a white satin cushion. Fred Franco, the bride's brother, acted as best man, and Messrs. Godfrey Schweng and Adolph Maas assisted as ushers. A grand orchestra furnished the music at the wedding and during the reception. Mrs. Franco was gowned in black silk, garnished with jet, and black chiffon applied in white honiton. The ceremony was followed by a supper, and refreshments were also served during the evening. The parlors were decorated with callas, orange blossoms, and festoons of smilax and white satin ribbons. Above the bridal party, in the bay-window, was suspended a large bell made of fine white flowers and maidenhair ferns, while in the wide doorway were double hearts of pink and white verbenas. The supper room was decorated with callas and heliotrope, the same colors being carried out in the decorations of the long table. A number of handsome gifts were received. After a short trip Mr. and Mrs. Schweng will reside at Beaumont, where the groom is building a home. The bride's going-away gown was of black and gray striped satin, garnished with jet and black satin ribbons. The hat was a turban of fancy green straw, trimmed with green velvet and cream-colored lace.

The wedding of Miss Margaret L. Craig and Charles H. Fisk took place Tuesday at 11 o'clock at the residence of the bride's parents on Court circle. The ceremony was performed by the Rev. J. K. Fowler in the presence of the relatives and a few friends. After a breakfast Mr. and Mrs. Fisk left for Mr. Lowe for a few days' visit. They will reside at No. 955 Court circle.

NOTES AND PERSONALS.

Mr. and Mrs. W. H. Workman entertained Prof. Perrine of Stanford and Mrs. Perrine, at dinner last evening. The table was decorated with cardinal carnations and ribbon, the uniting color, combined with maidenhair ferns. Mrs. G. A. Smith of No. 2100 Bonaville avenue is at home on the first and third Fridays.

Mr. and Mrs. Boyle Workman are receiving congratulations on the advent of a little girl in their family yesterday afternoon.
Mr. and Mrs. J. B. Binford gave a theater party Monday evening in honor of Mrs. Erastus Wells of St. Louis and Mrs. Cave Coutts of San Diego. The play was followed by a supper at Illich's.

The postponed reception of Mr. and Mrs. L. Harris in honor of their daughter's engagement will be given on next Sunday and Monday afternoons, at No. 955 South Hill street.

Mrs. W. W. Manspeaker and Mrs. R. K. Jamison of Topeka, Kan., arrived Monday and will be the guests of Mrs. H. M. Sale for two weeks.

PASADENA EVENTS.

A charming reception was given yesterday afternoon by Mrs. C. B. Scoville of Colorado Court, in honor of her guest, Mrs. Charles Edward Brown of Chicago. The house was very artistically decorated with flowers and maidenhair ferns. Mrs. Scoville was assisted in receiving by Mrs. Mary A. Scoville and Mrs. Dodsworth. About two hundred invitations were issued. Music was furnished by Schilling's orchestra. An elaborate collation was served by Mrs. D. I. Holt of Adella avenue, president of the Pasadena W. C. T. U., gave a white ribbon tea Tuesday afternoon.

Mrs. H. M. Baldwin of South Madison avenue gave a reception yesterday afternoon. The floral decorations were exceedingly artistic. Mrs. Baldwin was assisted in receiving by Mrs. Hale and Miss Hale recently of Tacoma; Mrs. Crikshank poured tea and Mrs. C. B. Scoville acted as hostess. F. S. Wallace and Miss Tilston assisted in receiving the guests. Misses Katherine Gardner, Church Young, Scudder, Ford, Fife and Wickens assisted in serving refreshments.

Mr. and Mrs. H. M. Staats entertained at dinner Tuesday evening in honor of Charles Bratten of Philadelphia. Covers were laid for eight. The guests were Misses Dodsworth, Vischoer, Cadwallader, Messrs. Bratten, Chambers and W. R. Staats.

An Artistic Badge.

At last the members of the various committees of La Fiesta are enabled to decorate their many bonbons with a badge that is artistic, something they have not been able to do heretofore. The badge is suspended by a ribbon from a silver bar bearing the name of the particular committee to which the wearer belongs, and the pendant is a reproduction in bas relief of the coveting steed and graceful cavaliero which adorns the poster designed by Borglum and Wachtel, the two Los Angeles artists, who are now abroad. The entire design is neat, in good taste and skillfully executed. It comes from the firm of M. Lisner & Co., the Spring-street jewelers, and does that house infinite credit.

A Spirited Interview.

[Washington Star:] "And you asked her father for her hand."
"Yes."
"Was he violent?"
"Very. He said I must be an idiot to think of such a thing."

"What did you reply?"

"I told him that, of course, he knew his own family better than I did, but that I was willing to take my chances."

A Sagacious Parley.

[New York Press:] The broncho snuffed suspiciously as the stranger cautiously mounted him. "I do believe," he snorted, "that the intended has perfunctory on his handkerchief. Consider that this—"
He braced himself for an effort.
His spinal column suddenly described a conic section.
"I will bunch the scenter. Neigh?"

This Picture Isn't Exaggerated.

It shows two of the same woman—one taken before we made her teeth—the other after. The natural lines of the teeth have filled out her cheeks, and taken ten years from her age.

What we have done for her we can do for any one.

Our New Process.

Of Flexible Dental Plates is as yet but little known by the public, and less understood by dentists in general. It has many advantages over the ordinary rubber plate, even gold plate, being lighter and thinner. This plate, being flexible, no thicker than heavy writing paper, fits closer to the month, will last longer, and is tougher than any other rubber. Once tried, no other plate will be desirable. Brought to the notice of the public through Dr. Schiffman only.

I can testify that the extracting of a tooth by Dr. Schiffman's method need not be dreaded by any one. He surely does it without pain. REV. S. L. WHITE,
 Pastor Boyle Heights Holiness Church
 December 10, 1894.

This is to certify that I have had 18 teeth extracted by Dr. Schiffman's method and did not experience any pain. It is unquestionably the best work I ever had done.
 C. W. BLANCHARD,
 With L. A. Ice and Storage Co.
 December 1, 1894.

On account of some unfortunate experiences I had had in the extraction of my teeth I became a great coward in this respect. Today Dr. Schiffman extracted one of my very refractory teeth without causing me one particle of pain. D. K. TRASK,

FINANCIAL AND COMMERCIAL.

OFFICE OF THE TIMES.
Los Angeles, March 24.
REAL ESTATE INVESTMENTS.
Among the attractive openings for the investment of capital in this section just now, the real estate market should not be forgotten. It may safely be said that there will never be a better time to buy property in Los Angeles and the surrounding country than now. There is no inflation whatever. On the contrary, many first-class bargains may be picked up by shrewd investors. One of the most profitable fields of investment in this line, which has been much overlooked of late, is the purchase and subdivision of tracts of country land. It is some time since any considerable work of this nature has been done, and there is a fair demand for small improved tracts, which can be bought on easy terms of payment.

COMMERCIAL.
AMERICAN STEEL IN EUROPE.
A recent shipment of American steel to England continues to attract much attention across the water. Referring to some remarks that have been made on the enterprise by English papers, the St. Louis Age of Steel says:
"Our English cousins still insist that American competition in the iron and steel markets of the world is ephemeral and wholly due to an abnormal condition of trade at home. If they will look into the situation a little more carefully they may discover that it is quite as much in keeping with the eternal fitness of things that this country should export pig iron and steel as that it should export grain, cotton, meat, fruit, petroleum, timber, copper, machinery, etc. The whole secret lies in this country's matchless natural resources and the superior skill and efficiency of its labor. Dull trade here may have driven the wedge into foreign markets that will open there wide to our iron and steel trade before the dawn of the new century."

GENERAL BUSINESS TOPICS.
SOLID WINE. A writer in a Bordeaux journal says that an engineer has recently concentrated the essence of vine plants, the best of all methods for producing an exquisite wine.

According to the prospectus issued by this ingenious person, two of his tablets, costing \$2.50 each, are sufficient to yield 110 liters of a liquor containing all the qualities of natural wine, from which it is practically indistinguishable. Not only does the compound possess most agreeable flavor and a delicate aroma, but it is likewise unrivaled as a refresher of the slightest damaged wines, and is commonly used by the French to give freedom from acidity of this pseudo wine led to its being constantly mistaken for a genuine wine. The process of converting the tablets into wine is simplicity itself. They are merely to be boiled in a water decoction, when, after being filtered, being further diluted and sweetened to taste, it is scarcely necessary to add, says the reporter, in conclusion, that the notable invention has been patented, that its trade mark has been duly registered, and that already two gold medals of first class have been awarded in recognition of its many virtues.

CALIFORNIA TOBACCO. Great interest continues to be taken in the subject of California tobacco. Sims Bros. of Etowanda and B. M. Hythe of Downey were among the exhibitors at the recent exposition at the California state fair, which demonstrated that tobacco growing in this section is not only possible, but profitable. More than a quarter of a century ago Mr. Culpepper of Santa Clara county, showed that California could raise good tobacco. Mr. Hythe, in connection with George Striker, an experienced cigar maker, has already turned out four brands of cigars at the factory in Downey.

PASADENA.

LANDMARKS CLUB ENTERTAINMENT WILL BE HELD TODAY.

Bicycle Thief Tries to Sell a Wheel to Its Owner—Monthly Report of the Public Schools—Big Party of Raymond Excursionists.

PASADENA, March 24.—[Regular Correspondence.] Preparations are practically completed for the entertainment to be given tomorrow (Thursday) afternoon at the Auditorium for the benefit of the Landmarks Club. "Recuerdos de las Misiones" promises to be one of the most interesting events of the season. No pains have been spared by those having the arrangements in charge. Many invaluable contributions have been made to the loan collection, which will be of the utmost interest to every student of the days of Spanish rule in California. Some of the exhibits will appear in public for the first time. Many of the objects of great historic value to the archaeologist and an unusual opportunity will be afforded for a study of the early civilization that preceded the advent of the Spaniards. The display promises to be an artistic success. Every effort has been made to reproduce, as far as possible, the atmosphere of the days of Spanish rule. Costumes, decorations and surroundings will be suggestive of that period. The proceeds of the entertainment are to be given to the Landmarks Club to aid in the work of preserving the fast-decaying missions of Southern California.

BOUGHT THE WRONG MARKET.

E. R. Braley, the bicycle-dealer, was somewhat taken aback today when a young fellow walked into the store and offered to sell a wheel which Braley immediately recognized as one of his own. The wheel has been stolen from him by J. Irwin, who rides to Los Angeles daily to the Courthouse, where he is employed. This morning the wheel was stolen from him, however, by the young fellow, who subsequently appeared at Braley's and offered the wheel for sale. He was promptly put under arrest. Braley, however, when he comes of very good family, and this was said to be his first offense. Mr. Braley consented that he should be discharged upon promise to return the wheel to its owner. The young man's parents were pioneers in Pasadena, and are now respected residents of Los Angeles.

THE PUBLIC SCHOOLS.

The report of Prof. James D. Graham, supervising principal of the Pasadena public schools, for the month ending March 13, presents the following statistics:

There was one holiday during the month, the number of days taught being nineteen. The whole number of days of attendance was 33,322, the absence number being 2,135. The whole number of tardiness was 320, of which 276 were excused. The number of boys enrolled was 966 and girls 1020, a total of 1986. The average attendance was 94. An analysis of the attendance shows that 945 boys and 983 girls were carried over from the previous month. Thirty-three old pupils who left school in some previous month, belonged to the present month. There were nineteen new pupils, five boys and fourteen girls. Nine boys and five girls were received by transfers. Thirty-one new pupils were admitted, thirteen being boys and eighteen girls.

During the month the Trustees made seven visits to the schools, the Superintendent, forty-three, patrons 112, teachers forty-two, others 102, a total of 306.

As compared with the same month of 1896, the enrollment shows a gain of 140 and the average daily attendance increased 231.

SOUTH PASADENA WILL WAIT.

The mass-meeting of the citizens of South Pasadena held last Monday evening for the purpose of considering electric lighting of the public streets, resulted in a deadlock. It was decided to advise to attempt this improvement at the present time. It was thought that other improvements were more urgently needed. The argument was also made that with all the electrical development that is now in prospect in this vicinity, the city could later on make much more advantageous arrangements than would now be possible.

PASADENA BREVITIES.

Two more complaints have been sworn out against W. H. Thomas, proprietor of the Omaha "restaurant," charging him with violations of the liquor ordinance. Thomas has deposited \$300 cash bail upon a previous charge, and is now hunting bondsmen for these cases commenced today.

Dr. and Mrs. G. P. Colburn and Mrs. E. Judd of Washington, D. C., and Mrs. M. L. Gurney of Granville, O., are at the Crown Villa.

The Boulevard Committee will meet next Saturday afternoon at 1 o'clock in the rooms of the Merchants and Manufacturers' Association in the Wil-

cox Building, Los Angeles. All persons who desire to suggest routes for the boulevard are invited to be present at this meeting.

A young lady lost a \$5 bill this evening, probably on Colorado street or Raymond avenue, within a block or two of the intersection of the two streets. The finder is requested to turn the money over to Marshall Lacey, and he will give it to the owner, who can ill afford the loss.

Prof. Hamill of Jacksonville, Ill., the field worker for the International Sunday-School Association, spoke at the Presbyterian Church this afternoon on organization in Sunday-school work. In the evening he made an address in the Tabernacle on Sunday-school teaching.

A six-year-old son of John Mohr of North Pasadena fell from a hayloft Tuesday afternoon, sustaining a fracture of the left arm. The broken bone was set by Dr. Swearingen and the child is getting along nicely.

A sneak thief entered the room of Howard Strim in the second story of Mrs. M. Smith's house at No. 264 Macgregor Place, some time Tuesday night. The thief secured \$10.25. As yet no arrest has been made.

Charles W. Seymour delivered a lecture Tuesday afternoon at the High School under the auspices of the High School Lyceum. His subject was, "Marie Antoinette." A good audience filled the hall.

Street Superintendent Buchanan says that it is impossible to keep the streets free from dust on Sunday by sprinkling them Saturday night. He says experience has shown that the work must be done on Sunday.

Cards have been issued for the wedding of Mrs. Mary Parker Foster and John G. Rossiter, the City Recorder, to take place on Wednesday evening, March 31.

SANTA BARBARA COUNTY.

VISIT OF HUNTINGTON AND NEW YORK BANKERS.

Republicans of Two Counties Scrapping the Idea of Collecting for the Port White Demagogue Hope to Keep the Place.

SANTA BARBARA, March 24.—[Regular Correspondence.] The expected presence in Santa Barbara of C. P. Huntington has started a fresh bunch of rumors about railroad possibilities. The simultaneous visit to the city of two prominent New York bankers is thought to have a connection with these reports. But, however it may be, it is certain that President Tappin of the Gallatin Bank and President Simmons of the Fourth National Bank are in Santa Barbara and will remain until the purpose of their visit is accomplished. It is said that the bankers are here for the purpose of making a loan to the city. It is also said that they should change his plans and give this city the go-by. It is said on good authority that the bankers are here for the purpose of making a loan to the city for the purpose of completing the bonds offered for sale by the company. If Mr. Huntington comes to Santa Barbara a reception will be given him, and a committee appointed to meet him at the time of his arrival can be learned.

FIGHT FOR THE COLLECTORSHIP.

Ventura and Santa Barbara are engaged in a "still hunt" for the deputy port collectorship for this district, which includes both towns. The Ventura Democrats recently broke out in an unwarranted manner and said that Santa Barbara did not deserve the job, and wouldn't get it, any way, as the Ventura Republicans were smarter and shrewder and better than "those old dopes up at Santa Barbara." The Central Committee of this county takes these unkind remarks to itself, and is seeking revenge. If the Ventura Republicans are so smart, they ask why they did not give a majority to Mc Kinley and elect a Republican Assemblyman? Furthermore, they claim that as this is a sub-port of entry, and Ventura nothing but a plain, every-day port, the Ventura have no claims on the office. The Democrats also expect to keep the office by virtue of the civil service law.

SANTA BARBARA BREVITIES.

Mr. Oster has joined her husband, Judge Frank F. Oster, of San Bernardino, in this city.

Continued good reports are received from the Barker tunnel, the strong flow of water continues, but the workmen are unable to make any progress on account of the gas; better ventilation will be provided.

His Idea.

[Cleveland Leader:] Jones. What do you think of such a woman as Mrs. Havelock, who can't even go to church without carrying her little doggie with her?

Brown. I think such a woman is married to the wrong man, that's all.

A Heartless Humiliation.

[Washington Star:] "The wretch!" exclaimed Willie Giggas, as he caught sight of himself in a mirror.

"To my valet. He said he'd be revenged on me for reducing his pay. But I didn't dream he'd be guilty of anything as horrible."

"What has he done?"

"Made my necktie look as if I had tied it myself."

SAN DIEGO COUNTY.

EUGENE B. STORK IS AGAIN IN TROUBLE.

Engineer Couts Sued for Divorce. Tobacco Company Asks for a City Park—City Council Delays Search for a Father Ends.

SAN DIEGO, March 24.—[Regular Correspondence.] "Col." Eugene B. Stork has returned to San Diego in charge of his office and the County Jail in default of \$200 bail, for disturbing the peace of San Pine at Vista. Stork appeared in a silk hat and banker-like clothes. He has been in the real estate business in Los Angeles.

This man Stork is the agent who tried to tempt teachers in this county about two years ago by offering them the equivalent of 27 per cent. annual interest on \$5 per month deposits.

THE COUTS DIVORCE SUIT.

Elizabeth B. Couts, has sued Cave J. Couts, well-known in this city as a mining man and civil engineer, for divorce. The complaint is based on sensational grounds, although no co-respondents are named. Mrs. Couts seeks the custody of Cave J. Couts, Jr., her eight-year-old boy, whom she has with her visiting relatives in St. Louis at present. Mrs. Couts was formerly Miss Ellen Clemens, daughter of Bryan Clemens, a brother of the late Jere W. Clemens, of this city.

FARMING A PARK.

The Tobacco Growers' Association, of which James J. Wade McDonald is president, petitioned the Council last night to give them the use of sixty acres of land in the City Park for the purpose of tobacco cultivation, and also to exempt them from the payment of park lands for tobacco growing. The board of Aldermen readily granted the request, but the board of delegates seemed to think the City Park could not be used for tobacco cultivation, and voted to the utter exclusion of any other would-be growers of the luscious weed, so the delegates will think the matter over before rendering their decision.

COUNCIL NOTES.

The Council last night adopted an ordinance entering into an agreement with the Dixon Company for the establishment of a city garbage crematory to cost \$12,000, when the city wants to buy it, and to be operated at a monthly rental of \$500 until the city shall purchase.

The proposition to purchase a city electric lighting plant, for \$48,000 on the installment plan, was discussed at length and is still in abeyance. Some effort is being made to get through an electric-lighting contract for a few years with the city, and the Board of Aldermen has voted to accept the bid of the San Diego Gas and Electric Light Company.

Mayor Carlson's veto of the new water-rate ordinance was overridden by both boards of the Council, unanimously.

HUNTINGTON POSTPONED.

The Southern Pacific Railway magnate, Collis P. Huntington, who was expected here about the 29th of this month, sends word to the city authorities that he is unable to accept the kind invitation of the city of San Diego, whose courtesy on this and other occasions I appreciate. I fear I shall not be able to visit San Diego before going to San Francisco, on account of my programme of engagements.

It is expected that Mr. Huntington will visit here the latter part of April.

SAN DIEGO BREVITIES.

Prof. Miller of the U.S.S. Albatross is seriously ill.

FOUND TOO LATE.

SAN DIEGO, March 24.—John L. Collier left today for his home in Belvidere, Boone county, Ill., a sorely disappointed man. During thirty-three years of his life he has been vainly searching for his father, who left his home in Belvidere in February, 1865, and was not heard of again by his family until a few weeks ago, when the son learned that he was located in San Diego.

The father's name was Wilford W. Collier, and he had resided here a quarter of a century, his last place of residence being named Viola Hambridge, and died January 22, last.

John L. Collier, the son, who came here only to find his father dead, tells the following story: "My father was a prosperous farmer at Belvidere up to 1883, but my mother was an invalid. I was the eldest of three children. We had a servant named Viola Hambridge, and for some unaccountable reason, my father, then 40 years old, became infatuated with her, and in 1883 they eloped and came to California, but returned in a year. In 1884 they eloped again, once more coming to California, and never returned.

My mother, sick beyond help of medical assistance, bore up under it for thirteen years, finally dying in 1876.

Her last words to me were full of faith in the husband and father, and she told me never to give up looking for him. Collier, she never, she never, she said. But search as I might, never a trace of father could be found until last New Year's day."

Collier then related that on that day he had learned from a circus man who had recently been in San Diego, that the runaway father was in this city. Collier, she never, she never, she said. But search as I might, never a trace of father could be found until last New Year's day."

The elder Collier was quite prosperous during a portion of the many years of his residence here. He built a fine house at that at the foot of Fifth street, and during the boom he was supposed to be worth considerable property. He and the woman with whom he left Belvidere, lived here as man and wife, and were highly esteemed. They have grown-up children here who are respected members of the community. It is thought that Mr. Collier left very little property.

He had died away some of his possessions a little while before his death. A son from Belvidere has retained City Attorney H. R. Doolittle to look after his interests in the estate.

ORANGE COUNTY.

A PRISONER WHO MUST GO TO OLD MISSOURI.

The County Goes into Court to Settle with Jail Contractors—School Board's Snap—General Brevities.

SANTA ANA, March 24.—[Regular Correspondence.] Thomas H. Dimmitt will have to go back to the County Jail for the law does not intervene in his favor, to answer to the charge of embezzlement of the T. A. Miller Lumber Company of Bolivar, Polk County. As stated in The Times on Wednesday Dimmitt was arrested by City Marshal Curtis of Santa Ana on a certified copy of an indictment from the grand jury of Polk county and telegraphic advices from the lumber company, and placed in the County Jail to await the pleasure of the Missouri officers. As soon as the arrest was made Marshal Curtis wired that the man was behind prison bars. Wednesday morning the Marshal received an answer stating that an officer was on the road to California and for the prisoner to be held until his arrival.

THE JAIL SUIT.

The Board of Supervisors on Wednesday began an action against Hulteen & Bergstrom, and others, who hold the contract for construction of the County Jail. The firm named was to receive \$19,802 and to have the building completed October 1, 1896. The work was not completed until April 12. Notice was served upon the firm and upon the bondsmen, Messrs. W. M. Osborn and Thomas Hughes of Los Angeles county, and Jonathan Snow and Jason Carter of Orange county. But neither builders nor bondsmen completed the work, so the county took charge and completed the structure. The county is now suing the firm for the balance into court and let claimant's litigate for a dividend.

BOARD OF EDUCATION.

The Board of Education of Santa Ana met Tuesday evening in the City Hall, all members and the School Superintendent were present.

The advisability of having a week's vacation during the month of April was discussed. A resolution was passed allowing a vacation from April 12 to 18, inclusive.

The matter of electing a census marshal was taken up. There were several candidates, but John T. Nourse proved successful. The census law provides that his work must be begun April 15 and be finished by April 30. Last year the census showed almost 1100 children of voting age.

The usual monthly bills were audited and ordered paid, as follows: R. J. Andrews, plumbing, \$17.75; Mrs. J. Snider, washing, \$12.50; John Anderson, labor, \$2; F. D. Jones, books, \$23.33; Justina Cairre Company, chemicals and glassware, \$27.39.

The board adjourned to Tuesday evening, April 13, which will be the last meeting of the present board, the city election being held on the 14th.

THE RECORDER'S BIG DAY.

Tuesday was a big day for the Recorder of Orange county. Together with the usual run of business came the filing of over 150 certificates of sale of real estate for the non-payment of the taxes for 1896.

At the time the district was disorganized there was about \$200 left on the district and above the expenses of the district in disorganizing, and this money was turned over to the county. At that time the filing of these certificates was neglected and when the question came up a week or so ago as to payment for the recording of them, it seemed that there was no money on hand for that purpose.

By action of the Board of Supervisors this amount, that had been turned over to the county, will be used to pay for recording certificates.

The fees of the County Recorder for the day amounted to \$123.35.

THE PUBLIC SCHOOL.

According to the rating of the State University at Berkeley, the Santa Ana High School stands at the head of the list of all the high schools in the State, and the primary and grammar grades of the city school rank with the very best in the State. The following partial report of the Superintendent, which has just been filed, will show the interest taken in the schools by pupils and teachers, and the good work that is being accomplished.

Whole number of days in attendance for the month ending March 2 in the primary and grammar grades and the High School, 15,874; whole number of days' absence in the same, 797.5; tardiness, 84; boys enrolled, 451; girls, 480; total, 931; average number belonging, 871; average number attending, 858; percentage of attendance, 95; number visits by board, 4; by Superintendent, 37; by parents and others, 144; total number of visits, 188.

The report shows an unusual percentage of attendance, but little tardiness and numerous visits by parents and others, being 144 out of the 188 visits, all of which goes far toward acquiring the best possible results in the schoolroom.

ORANGE COUNTY BREVITIES.

Santa Ana Lodge, No. 149, Knights of Pythias, is making arrangements for the appearance of the Smalley Grand Council Company Friday evening, April 2.

Mary Breeden has purchased lot 1 in block F of the Price and Stella tract, addition in Santa Ana for \$525.

Miss Murphy has organized a physical-culture class of about twenty-five ladies at Orange.

Born to Mr. and Mrs. W. Burge of Villa Park, March 13, a son.

RANDSBURG.

THE LOCAL POSTOFFICE DOES A BIG BUSINESS.

Complications Regarding the Rich Rand Group—Two Citizens of the Camp in Trouble at Carson. Strike in Panamint District.

RANDBURG, March 21.—[Regular Correspondence.] The general government is probably making more money from the Randburg postoffice than from any fourth, or even third-class office in the country. The cancellation of stamps has sometimes reached \$100 per week and is not far from that now. It keeps two men busy handling the mail and the salary is not to exceed \$1000 per year. At the present rate there is a clear profit to the government of between \$3000 and \$4000 a year. This showing gives a pretty good idea of the number of people here and the business done. Besides this, Wells, Fargo & Co. have done a heavy business ever since the office has been opened.

The establishment of a postoffice at Johannesburg will take away some of the business from the Randburg office. The new people coming in will more than make up the difference, and until the very hot months of July, August and September, the Randburg office will be expected that about June this will be made a third-class office and also a money-order office. Postage at San Francisco to give the office but little personal attention, but the business is conducted very efficiently by Clyde Kuffell, his deputy.

Messrs. Reddy, Burcham, Moores, Robinson and others interested in the Rand group of mines, are still in consultation, and the result of their deliberations, something that every man interested in this camp wishes to know, has not been made public.

Four men have been at work since February on a very rich stinger on the Trinity ledge. They now have 250 sacks of this ore, which has been carefully sampled and will run from 10 to 15 per cent. in gold. The company proposes to ship this ore some time this week and there is probably fifteen tons of it.

A few days ago, after a clean-up at the Garlock mill of a run of ore from the Olympia mine, a sack of sulphur weighing fifty-five pounds was sent to Selby smelting works at San Francisco and a return from there Saturday gave \$700 as the net value of the fifty-five-pound sack.

From a conversation with Mr. Reddy and Mr. Moores Saturday evening, both gentlemen declared the intention of the company to put on more men, but it is not expected that a very large force will be put to work until the summer. The conditions are cleared away. This may take a little time, but beyond that gives the owners no uneasiness. It seems too bad that men like the Rand group, containing a whole mountain of rich ore, as many of the most experienced experts as who have examined them, should be unable to do anything with it.

Mr. Singleton, one of the owners, is expected back to Randburg in a few days. He has been in Los Angeles for many months and has undergone two very dangerous surgical operations for a very bad brain, but is now rapidly recovering.

D. M. Pyle of the St. Elmo mine came in yesterday from a three weeks' vacation in Los Angeles and Bersheid, Mr. Gould, manager of the St. Elmo Company, is expected tonight.

There are many new men in camp, and it is noticeable that nearly all are looking for investments in mines, and while there is a decided slump in town property, more men are now seeking investments in mining property than ever before.

The weather here is very unfavorable, with cold chilly winds, but now that March has nearly gone there cannot be much more of that kind of weather here.

Services were held in the new Episcopal Church yesterday, and a large congregation greeted the minister, Rev. Mr. Nagle. At least twenty-five ladies were present. Mr. Nagle was very unwell and was compelled to cut the service very short.

The two men, W. A. Smith and W. S. Bradford, who had the trouble at Carson which resulted in the death of Bradford, were well known here. Bradford came here from Anaconda, Mont., and owns considerable property here. He was regarded as a good fellow and well liked. Smith dealt suit poker at the Capital and White Fawn saloons and so had many friends. From an eye witness just returned from Carson it seems that Smith fired the fatal shot in self-defense, and only after suffering considerable punishment from Bradford.

The Orpheus Theater is well patronized, and the company well up in their several parts, giving a good show every night.

Thomas Northern, a wrestler, now living in Randburg, but formerly of Fresno, is willing to make a match with any middle or heavy-weight for a purse of \$100. Burns of Los Angeles preferred, the match to be pulled off in Randburg.

The Randburg Mining and Milling Company have moved its office from the postoffice building to the Val Verde mine, and Col. Penler and Mr. Quinn are now only occasional visitors to Randburg.

There is considerable excitement in regard to the Panamint country, some rich finds being reported. The Randburg parties are leaving for that camp. A new mining town called Balarat has been located there, and the probabilities are that quite a camp will grow up around it. The distance from Randburg to a northeasterly direction is about seventy miles.

CHAMBER OF COMMERCE.
Resignation of Director Fred L. Allen Accepted.

The board of directors of the Chamber of Commerce met yesterday afternoon at 3:15 o'clock. The following directors of the board were present: Bluet, Duque, Francis, Willard, Forman, Groff, Hooker, Jacoby, Johnson, Klokke, McKinley, Newberry, Slauson, Waters. President Forman occupied the chair. The resignation of Director Fred L. Allen was accepted with regret, and the chair appointed a committee, consisting of Directors Klokke, Slauson and Willard, to select a new member to fill the vacancy occasioned by Mr. Allen's resignation.

A communication was read from W. H. Murray of San Francisco, requesting the board to consider a resolution now before the Board of Regents of the University of California to establish a College of Commerce, to bring the manufacturer and grower together to promote the fiber industries of flax, hemp, cotton, ramie, etc. The matter was referred to the committee on manufactures to report at the next meeting.

The local secretary of the Order of Railway Conductors, Mr. Clough, appeared before the board and asked that a committee be appointed to assist in raising funds for the purpose of entertaining the representatives of the National Order of Railway Conductors, who will be in convention in this city beginning the 11th of May next. The chair was instructed to appoint a committee of three members to assist the committee that had already been appointed by the Merchants' and Manufacturers' Association. J. H. Adams of Pasadena was elected to membership.

MORE PIGEON FANCIERS

Who Fancy That Other People's Pigeons Belong to Them.

Detective Miles Long, also president of the Los Angeles Pigeon Fanciers' Club, has succeeded in capturing another despoiler of pigeons. Mike Miller is a small boy of about 12, but he is said to have developed an alarming ingenuity in robbing pigeon roosts. Long captured Miller on a description given him by John Zens of No. 526 Banning street, who charges both the boy and John Cunningham, arrested on Tuesday by Long, with feloniously carrying off many pigeons to the value of \$25. Before Justice Morrison, Cunningham pleaded guilty, but the Miller boy put in a plea of not guilty. On the charge of stealing, the boy was sentenced to the house of correction for 15 days. The Miller boy put in a plea of not guilty. On the charge of stealing, the boy was sentenced to the house of correction for 15 days.

Chief Glass permitted Miller's father to take him away last night, on the promise to bring him to court this afternoon. Cunningham, the colored wonder, still remains in durance objectionable.

A New Naval Cadet.

George Patton Brown, son of the late Thomas B. Brown, a nephew of George S. Patton, has received from Congressman Charles A. Barlow the appointment from this Congress district to the Naval Academy at Annapolis, Md. The young gentleman is a native son and his selection is very gratifying, not only to his friends, but to those born under the genial skies of California, and he is being generously congratulated upon his good fortune in being selected to represent his State among the nation's future sea fighters.

Paver Walker's Testimony.

Frank J. Walker, who testified that he considered the Main-street paving all right and a good job, complains that insufficient attention was given to his explanation about the Sixth-street paving. He says he laid a part of it for George Perrine, but the part that proved too soft was laid by Perrine himself. Walker was not understood that the asphalt laid under his own supervision proved to be durable and satisfactory, and that he so testified. He still thinks the job was a good one, and declares that Thomas Price knows nothing about paving.

MUSICAL MENTION.

Mrs. Roth Hamilton's first pupils' recital yesterday afternoon at her residence on South Pearl street was a very charming success. The programme which was delightfully rendered, was as follows:
"Cradle Song," (Norris)—Miss Beaulieu Whitcomb.
"Answer," (Robyn)—Mrs. Joseph Miller.
"Fiddle and T," (Goodeve)—Miss Beulah Kendall.
"Good-bye, Sweet Day," (Vannah)—Miss Gleason.
"Queen of the Night," (Torrey)—Mrs. Bert Stearns.
"Slumber Song," (Vannah)—Miss Varel.
"Happy Days," (Streletski)—Miss Alice Minston.
"Sunrise," (Werklein)—Mrs. Fred Johnson.
"He Was a Prince," (Lynes)—Miss Florence Oliver.
"Swiss Song," (Eckert)—Miss Christine Clark.
"Bright Star of Love," (Robandi)—Mrs. Belle Rank.
Mrs. Hamilton afterward sang "A Mother's Love," by Hope Temple.

CUT HIS ARM.

A Walter Putt His Arm Through a Glass Door.
J. F. Lincoln, a boy employed at Merriam's candy store, No. 127 South Spring street, was yesterday sent for something to the back part of the store. There is here a glass door, and as he arrived there, Lincoln tripped. To save himself from a fall he threw out his hand, sending it right through the glass and cutting a bad gash two inches long in his right forearm. He was sent up to the Receiving Hospital and five stitches were taken in the edges of the wound. Lincoln then went to his home at No. 514 Wall street.
